INDEX

VOLUME XXXIII, 1966

Subjects and Titles

Academy of Dentistry for the Handicapped: 150, 189, 251

Anesthesia by Jet-Injection in the Practice of Pedodontics: 340

Ankyloglossia: A Review of the Literature and a Case Report: 238

Annual Meeting, A.S.D.C., 1966 Program: 299

Anterior Open Bite: Serial Observations of 37 Young Children: 226

Apex Formation Following Treatment of Necrotized Immature Permanent Incisor: 378

Application of Psychological Principles to Dental Practice: 113

Behavioral Patterns of the Child Patient: 50

Book Review: Accepted Dental Remedies, 1966: 41

Capping Dental Pulps With a Compound of Calcium Phosphate, Neomycin and Hydrocortisone: 42

Case Reports: Ankyloglossia: A Review of the Literature and a Case Report: 238

Odontodysplasia: Report of Three Cases: 353

Cavity Varnishes Shown Ineffective?: 174

Changing Concepts in Pedodontics Education: 157

Clearance of Oral Sugar in the Mouths of Patients Experiencing Oral Clefts and in Those With Normal Palates: 252

Clinical Anticariogenic Effectiveness of Supplementary Fluoride-Vitamin Preparations, Results at the End of Three Years, The: 3

Clinical Approach to Oral Pathology, A: 375

Clinical Study of Depth of the Gingival Sulcus in the Primary Dentition: 289

Comparison of Automatic and Hand Toothbrushes: Cleaning Effectiveness for Children: 219

Comparison of Toothbrushing Technics for the Preschool Child, A: 205

Concept of Preventive Orthodontics, The: 75

Dental Caries in Seventh-Day Adventist Children: 22

Dental Changes in Juvenile Hypothyroidism: 167

Distinguished Service Award—Nomination Form: 110

Do We Tell the Truth About Preventing Caries?: 269

Editorials:
Lessons of the Past: 88
Let the Shoemaker Stick to His Last: 180
Rx: Life; To Be Taken With Patience: 288
Security: 24
Why Become Certified?: 339

Effect of Appointment Length on Behavior of the Pedodontic Patient and His Attitude Toward Dentistry, The: 61

Effect of Zinc Oxide-Eugenol Cement on a Formocresolized Pulp: 381

Fluorides, Theory and Practice: 186

Folded Occlusal Film, The: 363

General Practitioner's Role in the Treatment of Anterior Crossbites, The: 324

Growth Potential of the Mandible as a Factor in the Mesial Movement of the Permanent First Molar: 331

Hard Set Calcium Hydroxide as Sole Base in Pulp Protection: 13

Hemihyperplasia of the Face and Skull Associated With Lymphohemangioma: 257

Impact of Water Fluoridation on the Practice of Dentistry for Children, The: 128

Improved Technique for Gingival Adaptation of the Stainless Steel Crown, An: 266

Index to Volume XXXIII, 1966: 397

Indirect Pulp Capping Success Verified: 164

Laboratory Studies Concerning Fluoride Metabolism Using Two Different Types of Fluoride Tablets: 90

Lessons of the Past—Editorial: 88

Let the Shoemaker Stick to His Last—Editorial: 180

Mellaril—An Aid to Behavior Control: 244

Metabolism of Sodium Fluoride in a Vitamin Preparation, The: 119

Method for Evaluating the Use of Premedicating Agents in Difficult Pedodontic Patients, A: 317

Newsletters: Center section of all six issues

Northeastern States Conference on Dentistry for Children: 246

Northeastern States Conference on Dentistry for Children to Be Held March 25-27, 1966: 40

Odontodysplasia: Report of Three Cases: 353

Officers and Committees—American Society of Dentistry for Children, 1965-66: 38, 211, 268

Orthodontic Management of the Horizontally Impacted Maxillary Incisor: 280

Past and Present Applications of the Mouth Protector: 368

Pediatric Dental Rehabilitation: 33

Pedodontics Board Announces Successful Candidates: 87

Pharmaco-Economic Approach to Minimize Cancellation of Appointments: 20

Physicians, Dentists, and Children: 284

Pierre Robin Syndrome: A Single Clinical History: 27

Practical Chairside Dental Health Education: 215

Premedication for Children: 125

President-Elect's Message: 214

President's Message: 2, 60, 156, vi, 338

Program Preview—Dallas, Texas, 1966: 248

Pulpal Reactions to Active and Arrested Carious Lesions: 190

Relationship Between Maternal Age and Parity, Birth Weight and Hypodontia in Naval Recruits, The: 135

Restoration of Primary Incisors With Acrylic Jacket Crowns—One Appointment Procedure: 182

Rx: Life; To Be Taken With Patience—Editorial: 288

Security—Editorial: 24

Simplified Yet Precise Technic for the Placement of Stainless Steel Crowns on Primary Teeth, A: 101

Successful Method of Treating Exposures in Children's Teeth Without the Use of a Rubber Dam, A: 263

Survey of Pediatric Dentistry in Cincinnati, A: 54

"Swish and Swallow" Is Effective: 162

Unit News: January issue: iii

Unusual Clinical Report, An: 148

Use of an Electric Toothbrush in Severely Retarded Children: 25

Use of Metal Center Discs in Restorative Dentistry, The: 123

Why Become Certified?—Editorial: 339
